

THE THICKREDLINE PROJECT

Sheriffs, Police Chiefs, Deputies, and Officers -

We hope that you will review this card and organize with other officers to draw a **THICKREDLINE** in the sand and refuse to enforce victimless crimes. *If you and your fellow officers* choose to side with the people over politicians, the trust and honor historically associated with *peace officers* can be restored once more. Embracing the **THICKREDLINE** assures that you are on the right side of history.

The overwhelming majority of people abide by "Live and Let Live" yet politicians get in the way by using "Laws" to make the peaceful actions "illegal" for their bottom line. We are asking you to stand firm in the conviction that *No Victim equals No Crime*. **Now** is the time to refuse to enforce immoral laws. "Laws" that can never be valid in a free society. The growing **THICKREDLINE** community is here *to support you, your department, and the people you serve*. Drawing a **THICKREDLINE** in the sand protects us all. It is our highest duty to protect fundamental freedoms; the root of all safety, security, and Liberty. Please contact us directly to help organize your department **www.THICKREDLINE.org**

Because it is hard to implement a police-state without the police...

Live and Let Live, Do Onto Others, No Victim No Crime.

*I accept the **THICKREDLINE** Policing Principles. I recognize Natural Law, basic morality, the Non-Aggression Principle, and understand that it is morally and logically impossible for the government and/or my badge to confer rights upon me that are not inherent to us all as individuals.*

I am delegated no special Rights by my oath or position, only special responsibilities. I pledge only to act and bear witness to protect lives, liberty, and property.

I therefore renounce the use of force or coercion on peaceful people where there is no victim to defend or protect.

I hereby pledge to protect all people from loss via any attempt at seizure of freedom, money, or property via civil or criminal means that violates due process as explained in the US Bill of Rights under the higher principles of Natural Law.

We renounce the use of violence on peaceful people to achieve governmental policy or revenue goals and refuse to enforce:

Victimless crimes including prohibitions on sales of substances or services between consenting adults, gambling, mandated masks, possession of firearms, accidentless "speeding" or other victimless traffic infractions.

Mandated medical interventions including forced vaccination, mandated social distancing, or closure of businesses based on alleged public health issues.

Seizure of money or property through asset forfeiture.

Mandated tax stickers, emissions testing, insurance regulations and other government-revenue collection where the government does not have a willing voluntary counter-party.
